PROFESSIONAL SUMMARY

I am Wesley Full-Stack Developer with 3 years of experience building modern web applications using React, Next.js, TypeScript, Java, and Spring Boot. Strong background in creating clean, user-focused interfaces and scalable solutions following Clean Architecture principles. Quick learner, adaptable to new technologies, and experienced with Agile methodologies such as Scrum and Kanban. Strong communication skills, team-oriented mindset, and passionate about solving problems and continuously improving products.

PROFESSIONAL EXPERIENCE

Bappoint - SaaS Appointment Manager Platform | Ennis, Ireland |

Jan 2026 – Present

Front end: NextJs, Typescript, ShadcnUI

Back end: Java, Spring-boot, REST API, Stripe, NEON Database

- Fullstack SaaS platform designed to help service-based businesses (e.g. car washes, barbershops) manage customer bookings.
- Frontend developed with Next.js focusing on responsive UI and user experience.
- Backend currently under development using Java and Spring Boot.
- Implemented payment flow with Stripe to collect 50% advance payment at the time of booking.
- Designed scalable API contracts to support real-time availability and future integrations.

More details: **Bappoint (GitHub):** <https://github.com/wesjx/bappoint-api>

Freelance Front-End Developer | Self-Employed | Ennis, Ireland |

Jan 2023 – Present

Designed and developed custom websites and dashboards tailored to client requirements.

Delivered responsive and intuitive user experiences using React.js, Next.js, Chakra UI, Shadcn/ui, HTML/CSS,

and JavaScript.

Participated in a full development lifecycle including planning, development, testing, and deployment.

Delivery & Warehouse Assistant

Craughwell Furniture | Galway, Ireland | Jan 2025 – Present

Assisted in furniture delivery, logistics, and customer service.

Maintained inventory systems and supported day-to-day store operations.

IT Support & Warehouse Assistant

Home Gallery | Ennis, Ireland | Jan 2022 – Jan 2025

Provided IT support including hardware/software troubleshooting, system updates, and website maintenance.

Assisted in furniture delivery, logistics, and customer service, e-commerce workflows, and in-store operations.

PROJECTS

DevToolPack – Developer Tools Management Platform

NextJs, Typescript, ShadcnUI, Neon DataBase, Google Cloud, OpenAI API

- Web application created to centralize, organize, and share essential developer tools in one platform.
- Built from a personal need to manage daily-used tools more efficiently.
- Integrated OpenAI API to assist with content generation and tool descriptions.
- Cloud-based deployment ensuring scalability and availability.
